DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/6/2010 has been entered.

Response to Arguments

Applicant's arguments, see amendment, filed 7/6/2010, with respect to claims 13, 15-18 and 20-24 have been fully considered and are persuasive. The rejections of claims 13, 15-18 and 20-24 have been withdrawn.

Allowable Subject Matter

Claims 13, 15-18 and 20-30 are allowed.

The following is an examiner's statement of reasons for allowance: regarding claims 13 and 29, prior art of record fails to teach or suggest a biochip comprising a plurality of molecular recognition areas and a plurality of optical position marks for the plurality of molecular recognition areas, distributed with a determined layout to form an optical format, wherein the molecular recognition areas and the optical format are spatially independent.

The closest prior art is represented by Ida et al. who teaches a device for reading a biochip including plural molecular recognition areas and plural optical positioning marks, associated with recognition areas and therefore teaches away from the instant claims which teach that the molecular recognition areas and the optical format are spatially independent.

Claims 15-18 and 20-30 depend on this distinct feature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
